

(SRI M. S. KRISHNAN)

employees of several local bodies should come under the purview and jurisdiction of the Vigilance Commission. The reason for this statement is, we all know and as was stated by Sri T. R. Shamanna today there has been enormous amount of corruption in the municipal corporation, in the City Improvement Trust Board and in several municipalities and local bodies in our State. Corruption has become synonymous with the work that is going on in the Corporation as well as in other bodies. It has been our experience both as legislators as well as men who have been serving the public, that this corruption has been going on from the highest level to the lowest level. For a licence, for a tender, for a contract, for anything even for an application to move from table to table, money will have to be paid. Nothing moves unless money is paid and the next authority might be a clerk or Engineer or Assistant Engineer or Executive Engineer or Superintending Engineer or wh ever might be. It all depends upon the quantum of work that a contractor would get.
